Experience

WelcomeScreen

Software Engineer

May 2025 – Present

Bengaluru, Karnataka

- Owned backend performance for core product flows, optimizing REST APIs through query tuning, pagination, and endpoint restructuring to cut average response times.
- Investigated and resolved production incidents using Datadog, tracing root causes across logs and traces to improve system uptime and reliability.
- Led a production data migration with zero data loss, coordinating cross-functionally with a distributed engineering team across time zones.

Cognisite Technologies Pvt Ltd

Full Stack Developer

Aug 2024 – Apr 2025

Bengaluru, Karnataka

- Delivered full-stack features across multiple client-facing products in an Agile team environment, ensuring tight frontend-backend integration.
- Built reusable UI components adopted across several features, reducing duplicate development effort and improving delivery speed.
- Diagnosed and resolved production issues under deadline pressure, directly improving application reliability and uptime.

Projects

Trendsetter | Next.js, TypeScript, Express, MongoDB, Stripe, Cloudinary, Gemini AI

- Architected and built a production-ready fashion marketplace end-to-end with TypeScript across frontend and backend, including JWT auth with refresh tokens.
- Integrated Stripe payments with webhook verification, Cloudinary-based image management, and AI-generated product descriptions using Gemini.

Pingify | React, Express, MongoDB, Socket.io, Redis

- Built a real-time chat application with end-to-end encrypted messaging, typing indicators, read receipts, and role-based group chats.
- Designed the backend with Express, Socket.io, and Redis for low-latency, bi-directional communication and live notification delivery at scale.

TrackIt | React, TypeScript, Redux, Tailwind CSS

- Built a project management platform with Kanban, list, and calendar views for flexible task tracking.
- Implemented role-based team collaboration, real-time notifications, and visual analytics for project health.

Education

Dr. A P J Abdul Kalam Technical University

Bachelor of Technology in Information Technology

July 2019 – July 2023

Lucknow, Uttar Pradesh

Technical Skills

Backend: Node.js, Express.js, REST APIs, Socket.io, JWT, OAuth

Frontend: React.js, Next.js, Redux, Redux Toolkit, Tailwind CSS, Chakra UI, Material UI, Shadcn

Languages: JavaScript, TypeScript, Java, C++, SQL

Databases: PostgreSQL, MongoDB, MySQL, Redis

Testing: Jest, Mocha, chai, sinon

Tools & Platforms: Git, GitHub, Docker, Vercel, Render, Datadog, Postman

Other: Stripe API, System Design, Data Structures & Algorithms, Agile/Scrum, Prompt Engineering

Certifications

Full Stack Web Development

Masai School

Database Management Systems

NPTEL
